#1. IDM (Stands for Index Memory)

These are the figures which the total ability of a horse is measured by a Speed rating and "Memory"(The last race's track condition, condition of the horse on the day of the race, etc). We also check objectively on the condition of the horse and horse equipment which are done by our paddock staff, who are at the same spot every time at the paddock. So, the horse race is not just "Time", but we think "Memory" is just as important. This is our main theory.

*IDM(Index- Speed rating /Memory)

| | |
|------------------|--|
| Base Time | The Base time of different tracks, conditions, and distance |
| Track Difference | Turf and Dirt conditions(Fast, Wet tracks) |
| Jockey's Weight | Various jockey's weight depending on races |
| The Last race | Bad gate, interference, dropping of hoofs, how it won, etc... |
| Where it raced | On the rail, inside, in the middle, outside, wide out, etc... |
| Pace of the race | Pace of the last race, the first 3 furlongs/5 furlongs, the last 3F/5F |

#2. The hoof

We differentiate the sizes of hoofs of each horse in 4 basic categories. They are Big, Medium, Small, and Thin. We also have 3 basic categories for the shapes of the hoofs. They are High, Normal, and Shallow. If a horse is classified as "Medium-Shallow", that means the horse's hoof is medium sized and shallow. On a wet or rough turf, high hoofs have an advantage over shallow hoofs. Although on the dirt, this is not so.

#3. Ability on wet track

These marks (, ,) show the ability of a horse on wet tracks by its records and the hoofs.

| The shape of hoofs | Race record on wet conditions | | | | |
|--------------------|-------------------------------|-----|-----|--------------|---------------|
| | 1st | 2nd | 3rd | Out of money | No experience |
| High | | | | | |
| Normal | | | | | |
| Shallow | | | | | |
| Not known | | | | | - |

- Likes wet condition
- Normal
- Does not run well on wet tracks

These marks are indicated according to the track (turf or dirt) on which a horse will be running. Even though a horse does not have a wet track record, we can check its ability on wet conditions by the shapes of its hoofs.

#4. Favorable distance

This shows the most favorable distance of a horse

Such as:

- Sprint
- Mile
- Mid-Distance
- Long-Distance

#5. Basic Odds

The total average of odds (Win and Show) calculated from Kansai and Kanto racing forms(Kanto 9 forms and Kansai 8 forms).

#6. Class

We divide horses into different classes by its abilities.

Ex.

- Turf OPA
- Turf OPB
- Turf OPC

#7. How it will run today

This will indicate how a horse will run today judging on the appearance from the last race's paddock.

| | |
|----|--|
| AA | The horse is a sure winner |
| A | The horse can battle for a win |
| B | The same as the last race |
| C | The horse might be a little tired from the last race |
| D | The horse is in a bad shape |

Note.

These ratings can be affected by long lay-offs.

#8. Workout arrows and ratings

These arrows and ratings show workout evaluations of which we gather from various racing forms and are simplified by our own evaluation system.

The 5 different arrows show conditions of horses by judging their workouts.

| | |
|---|----------------------|
| | In perfect condition |
| / | On the way up |
| | The same |
| \ | On the way down |
| | In bad condition |

Ex. Workout - 10 /

The arrow is going up, but the rating is -10(- means negative). The arrow is calculated by information of various racing forms. The rating is calculated by a particular handicapper. Sometimes, an evaluation might be like this, but we urge you to focus on the arrows instead of the ratings on such evaluation.

#9. Stable arrows and ratings

These arrows and ratings show reliabilities between various racing forms and stables which we simplify it into our own evaluation system.

The 4 different arrows show the reliability of each stable on a particular horse.

| | |
|---|------------------------|
| | Ready for a win |
| / | Very high on its horse |
| | So-So chance |
| \ | Also-run at best |

Ex. Stable - 10 /

The arrow is going up, but the rating is -10(- means negative). The arrow is calculated by information of various racing forms. The rating is calculated by a particular handicapper. Sometimes, an evaluation might be like this, but we urge you to focus on the arrows instead of the ratings on such evaluation.

#10. Jockey's place percentage

This percentage shows how reliable an A jockey is with a B horse, thus makes it easier to evaluate if the jockey and the horse is well-matched or not.

#11. Racing position

| | |
|----|-------------------------|
| PM | Pace Maker |
| FR | Front Runner |
| S | Stretch Runner |
| F | Can run at any position |

#12. Horse equipment

These indicators mean a change in horse equipment from the last race and is a Potential Big Money horse equipment change.

| | |
